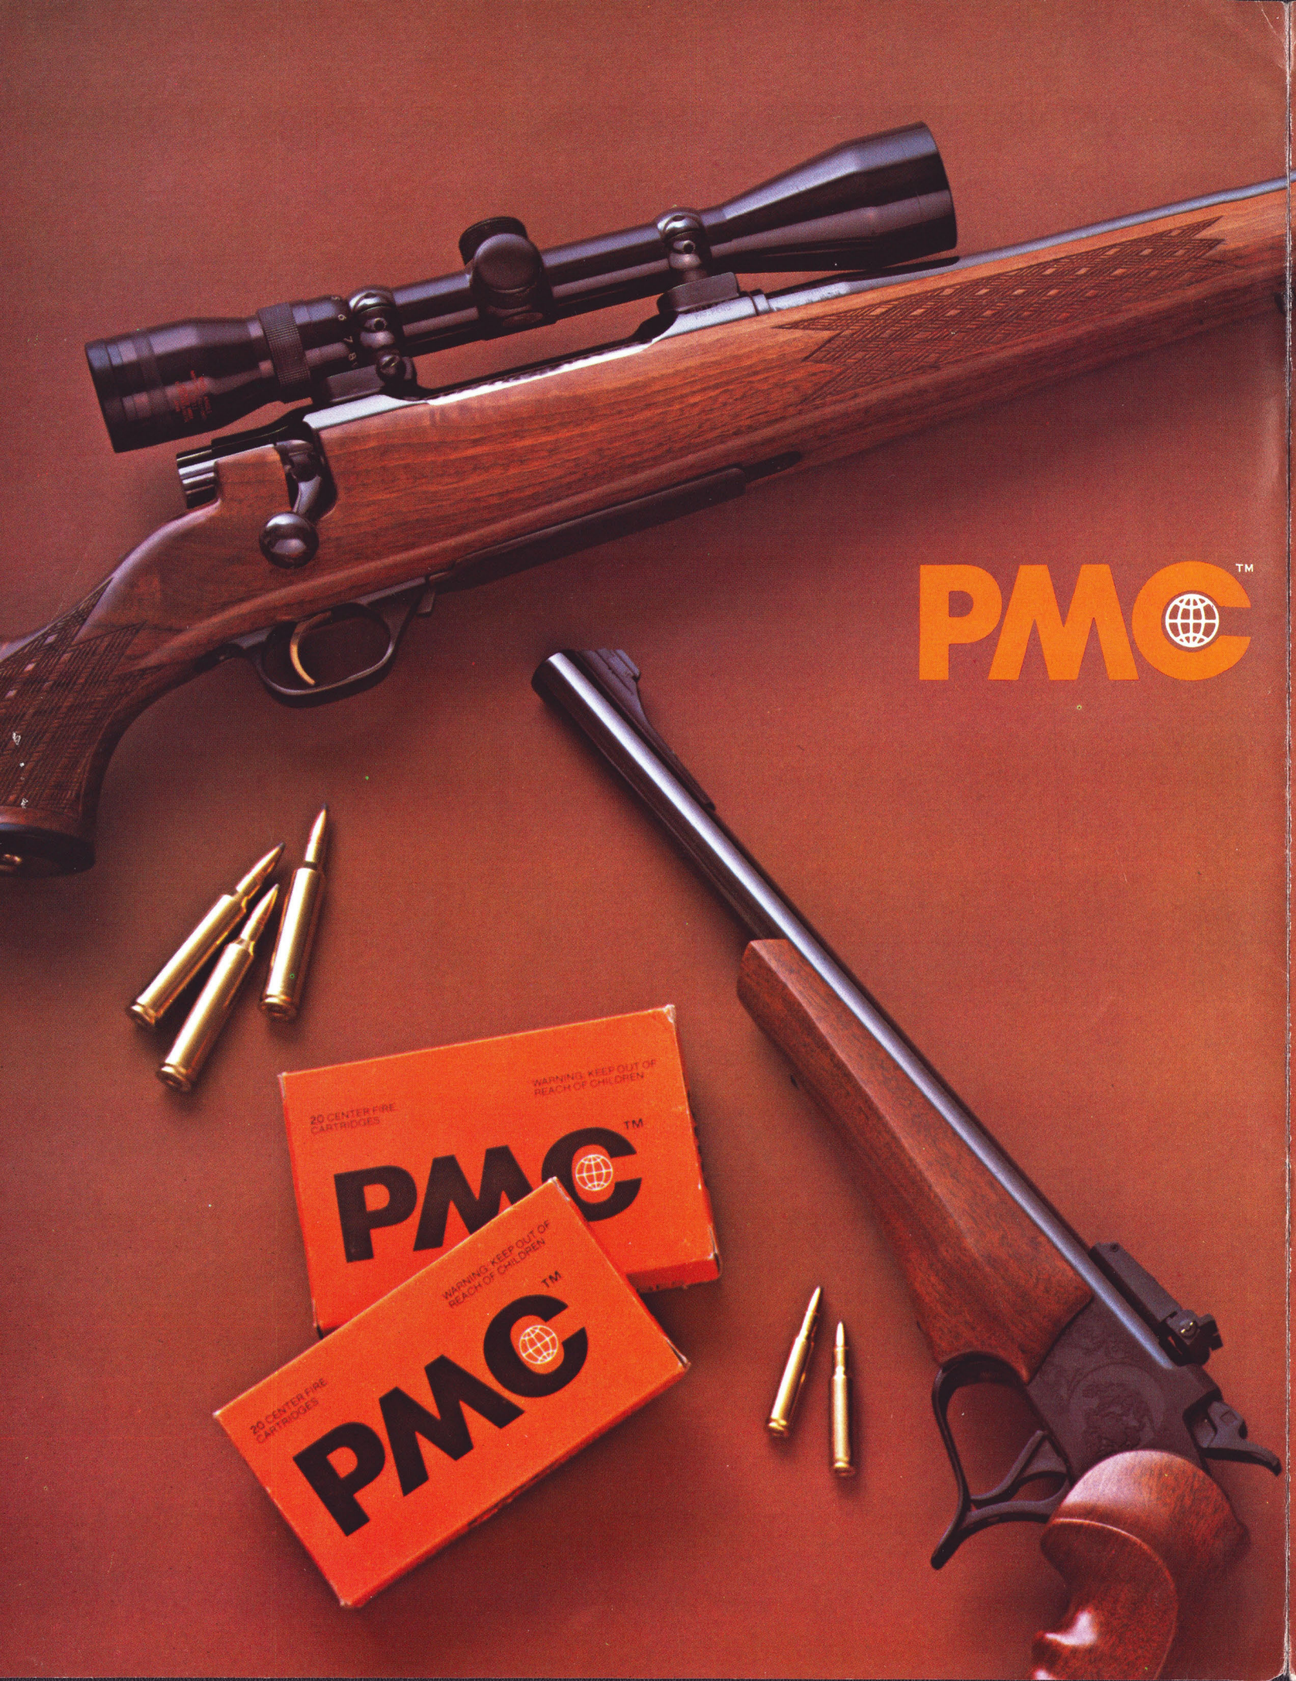
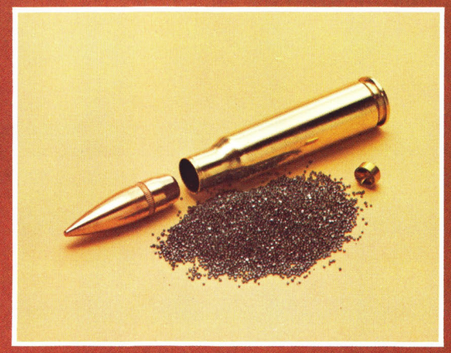
PMC™ AMMUNITION

Precision Made Cartridges



PMC™ AMMUNITION...

THE HIGH TECHNOLOGY AMMUNITION FOR TODAY'S SHOOTER



PRECISION MADE AMMUNITION!

Shoot and compare PMC factory ammo with the other leading brands, and you'll discover why more and more shooters are switching to PMC. It's quality ammunition through and through. Precision made in one of the most modern ammunition plants in the world, using the latest manufacturing techniques from America, Switzerland and W. Germany. With PMC you get what you pay for. We don't compromise on quality . . . or loads.

GUARANTEED AMMUNITION PERFORMANCE!

To start with, PMC cases are pure brass . . . precision drawn for greater accuracy. They can be reloaded time and time again, too. Each case is loaded with PMC smokeless propellants to give you what you want, without flash or fouling. The PMC nonmercuric, noncorrosive primer is totally reliable under a wide range of conditions. PMC bullets, are made to precise tolerances, in a wide choice of popular configurations. Though PMC is factory made ammunition, many shooters and marksmen believe it is often better than hand loaded ammunition.

SHOOT PMC AMMUNITION . . . YOU'LL GET RESULTS!

Military AMMO To U.S. Specs!

PMC offers the *most complete line of modern military rifle and pistol ball ammunition commercially available* in our Arsenal Line. All made to U.S. military specifications and ballistics.

WIDE CHOICE OF POPULAR SPORTING AMMO!

When it comes to hunting, PMC's line of centerfire rifle cartridges are unsurpassed. Available now in a wide range of popular calibers in most bullet styles and weights.

PISTOL AND REVOLVER CARTRIDGES TOO!

Whether in the line of duty or a silhouette match, PMC pistol and revolver ammunition gives shooters a big advantage. It is available in a full range of calibers and bullet configurations for target or law enforcement demands.

PACKAGED FOR YOUR CONVENIENCE!

PMC sporting ammunition is packaged in attractive orange cartons. Whereas all military rifle and pistol ball ammo is packed in fiberboard cartons and wooden cases for easy handling.

PMC CENTER FIRE RIFLE CARTRIDGES

WITH PMC, YOU GET WHAT YOU PAY FOR!

QUALITY MAKES THE DIFFERENCE!

At PMC, our employees are instilled with the desire to make the finest ammunition money can buy. Quality components, skilled craftsmen, and constant inspections throughout the course of manufacturing insures you ammunition you can depend on.

Quality Brass Makes The Difference!

Each PMC case is drawn from the highest quality brass to insure smooth chambering. Cases can often be reloaded time and time again.

Precision Bullets!

PMC bullets are made to precise tolerances in the most popular configuration. Choose the style for your game.

Full Velocity Without Flash Or Fouling!

Progressive burning, PMC smokeless propellants are ballistically matched to each cartridge to insure full velocity without flash or fouling.

PMC Primer!

The PMC nonmercuric, noncorrosive primer is designed for constant, reliable ignition under a wide range of conditions. That's why hunters from Alaska to Kenya appreciate PMC's reliability in the most adverse conditions.

Shoot PMC ... It's The Precision Made Ammunition!

Unless otherwise noted, ballistic specifications were derived from test barrels 24 inches in length. Test barrel length 18 inches.
FMJ = Full Metal Jacket. SP = Soft Point

NOTE: These trajectory tables were calculated by computer using a standard modern scientific technique to predict trajectories from the best available data for each round. Each trajectory is expected to be reasonably representative of the behavior of the ammunition at sea level conditions, but the shooter is cautioned that trajectories differ because of variations in ammunition, rifles, and atmospheric conditions.

PMC HANDGUN CARTRIDGES!

QUALITY MAKES THE DIFFERENCE!

PMC pistol and revolver ammunition is available in a wide choice of calibers, bullet styles and weights. Whether at the range, on duty, varminting, here is ammunition you can rely on. That's why more and more law enforcement personnel are "PMC Believers".

NOTE: To simulate service conditions, these figures were obtained from a 4" length vented test barrel with a .008" cylinder gas and with the powder positioned horizontally inside the cartridge case.

FMJ = Full Metal Jacket
RN = Round Nose
JHP = Jacketed Hollow Point
JSP = Jacketed Soft Point

Bullet configurations:

A Jacketed Hollow Point—for maximum *expansion*
B Soft Point—for deeper *penetration*
C Full Metal Jacket—designed for auto loaders, revolvers
D Wadcutter—solid lead for target shooting
E Semi-Wadcutter—silhouette competition
